

# **Genomic medicine III**

Chicago, IL

May 3-4

# Genomic Medicine meetings: goals

- Identify directions and priorities for genomic medicine
- What role should NHGRI and the Genomic Medicine Working Group play to support and accelerate progress?
  - Writing groups? Workshops/conferences? Consortia? Funding solicitations?
- Genome medicine I: What is actually going on in the field?
- Genome Medicine II: Develop ideas for multicenter collaborative pilot projects in translational genomic medicine

# Goals: Genomic Medicine III

- Address barriers to executing a vision of genomic medicine
- Engage stakeholders outside academic medical centers
- Lessons from ongoing implementation efforts: Biomarkers, education
- Reports from working groups
- End with “High Priority Areas for Evidence Generation and Prelude to September meeting”

# Thanks to

- Melissa Basford
- Robin North
- Lauren Melancon
- Ian Marpuri
- NHGRI

# Planning committee
