# Lynch Syndrome Cancer Risks

## Lifetime risk\*

\* Lifetime risks of cancer up to these percentages depending on which gene mutation is present.

# Revised Bethesda Guidelines

- Colorectal cancer diagnosed in a patient who is less than 50 years of age.
- Presence of synchronous, metachronous colorectal, or other HNPCC-associated tumors, regardless of age.
- Colorectal cancer with the MSI-H<sup>†</sup> histology<sup>‡</sup> diagnosed in a patient who is less than 60 years of age.<sup>§</sup>
- Colorectal cancer diagnosed in one or more first-degree relatives with an HNPCC-related tumor, with one of the cancers being diagnosed under age 50 years.
- Colorectal cancer diagnosed in two or more first- or second-degree relatives with HNPCC-related tumors, regardless of age.
