Genes in Motion video

Last spring, to commemorate DNA Day, the National Human Genome Research Institute and the NIH Office of Science Education partnered with the Liz Lerman Dance Exchange, a world renowned modern dance company, to present a workshop titled "Genes in Motion" for high school students from nine Washington D.C. area schools. The workshop combined methods developed by NHGRI researchers, science educators, and the Liz Lerman Dance Exchange to teach genetics through movement, spoken word, and creative applications of technology. To view the video, visit <http://www.genome.gov/26525978>.

DNA Day Chatroom on April 25

Don't forget log on to the **2008 DNA Day Chatroom** at www.genome.gov/dnaday, to participate in a live, online chatroom! Students can chat with leading researchers in the field of genetics. The chatroom will be open from 8am until 6pm (EST) on April 25. Also, log in at noon to learn the winners selected by the American Society of Human Genetics in their DNA Day essay contest (www.genednet.org). To read last year's transcript, visit www.genome.gov/dnaday. For information, please contact Sarah Harding (sharding@mail.nih.gov).

If you do not wish to receive this mailer, please contact Carla Easter. If you know someone who would like to receive this mailer, please have them contact Carla Easter at easterc@mail.nih.gov.
